Inspection Report

TESTED ITEMS : Gasoline 90 Recovery Amount
CLIENT : Marshall company and Jo Petrol Company
REFERENCE DOCUMENT: Flow meter Calibration Certificate,
PLACE OF INSPECTION : Jo Petrol Station – Estiklal Street – Amman- Jordan
SCOPE OF INSPECTION : Monitoring recovery amount percent.
INSPECTION DATE : Aug/2023
ATTENDEES : ENG. Mahmoud Abdallah (SGS- JORDAN REPRESENTATIVE)

At the request of Messrs. Marshall Energy Company, we attended at the specified place and date above for the purpose of monitoring the gasoline 90 recovery percent.

Attachment:

- Result sheet.
- Calibration Certificate.
- Test photos

The above reflects our findings at time and place of inspection. This inspection report doesn't relieve buyers or sellers from their contractual responsibilities nor does it prejudice buyer's right of claim toward sellers/suppliers for compensation for any apparent and/or hidden defects not detected during our inspection or occurring thereafter.

This document is issued by the Company under its General Conditions of Service printed overleaf. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein.

Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

Project: Daily Recovery Gasoline Amount Monitor.

Ref: C1527-23 Rev:2

Client: Marshall Energy & Jo Petrol Company.

Report Requested by: Marshall Energy & Jo Petrol Company.

Subject of Report	Item	Qty Sample
1. Gasoline Recovery Amount.	Gasoline 90	30 Days
2. Gasoline Recovery Percent with Daily Sales Quantity.	Recovery Unit

Summary	4
Annex (1): Flowmeter Certificates	
Annex (2): Excel Sheet Calculations	
Annex (3): Daily Recovery Records - Machine System.....	
Annex (4): Electricity Consumption Records - Machine System.....	

The above reflects our findings at time and place of inspection. This inspection report doesn't relieve buyers or sellers from their contractual responsibilities nor does it prejudice buyer's right of claim toward sellers/suppliers for compensation for any apparent and/or hidden defects not detected during our inspection or occurring thereafter.

This document is issued by the Company under its General Conditions of Service printed overleaf. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein.

Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

➤ **Introduction:**

- Marshall Energy Company and JoPetrol Company agreed to install a one condensing machine for Gasoline 90 Recovery, it is directly connected to the Five Gasoline 90 underground tanks in Estiklal Gas Station.

The Measurements of Recovery amount detected as daily basis by SGS Team.

The Measuring Process Contains Two Different Methods:

- Monitoring The Digital Flowmeter Readings.
- Monitoring The Machine sensor readings.

The Monitoring Process include the following data:

- A- ATG Daily Records.
- B- Sales System daily records.
- C- Daily Filling sheets.

➤ **Required Data for Monitoring:**

The Monitoring Process has been done according to daily readings for the following data which provided by the SGS Team and JoPetrol Team (Estiklal Station).

- Daily Flowmeter Readings.
- Daily ATG System Readings.
- Daily Sales System Readings.
- Machine Sensor Daily Readings.

The above reflects our findings at time and place of inspection. This inspection report doesn't relief buyers or sellers from their contractual responsibilities nor does it prejudice buyer's right of claim toward sellers/suppliers for compensation for any apparent and/or hidden defects not detected during our inspection or occurring thereafter.

This document is issued by the Company under its General Conditions of Service printed overleaf. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein.

Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

➤ **Monitoring Procedure**

1. Install and calibrate the flowmeter

SGS Team Check the Installation and calibration process for the digital flowmeter.

Attached as (Annex 01).

-Flowmeter Calibration Certificate.

-Flowmeter Certificate.

-Flowmeter Pic's.

2. Daily Monitoring the flowmeter readings:

SGS Team conducted a daily visit at 11:00 Pm in order to record the flowmeter data as submitted by attached excel sheet (Annex 02):

3. Daily Monitoring the Machine Sensor readings - Marshall Company system:

SGS Team Record the daily Sensors readings by accessing the Machine cloud system.

Attached Daily records (Annex 03).

4. Recording The Data from Daily Sales Records, ATG System and Gasoline daily filling Sheet.

SGS Team Receive the daily information from Station team and record the data in the attached excel sheet (Annex 02).

5. Upon the above received data and records SGS Technical Team calculate the following:

- Gasoline 90 Recovery Percentage - (Recovery Amount / Daily sales quantity).
(As flowmeter readings).

- Gasoline 90 Recovery Percentage - (Recovery Amount / Daily sales quantity).
(As Machine Sensor readings).

Summary:

According to the Attached Excel Sheet (Annex 02):

A- The following Data observed:

- The Flowmeter readings variety from 142 Lit/ Day - 323 Lit/Day.

-The Sensor records variety from 141 Lit/ Day - 384 Lit/Day.

B- SGS Team Record the Flowmeter Reading at 11:00 PM Daily.

The System Record Readings as 11:59 PM Daily.

The above reflects our findings at time and place of inspection. This inspection report doesn't relief buyers or sellers from their contractual responsibilities nor does it prejudice buyer's right of claim toward sellers/suppliers for compensation for any apparent and/or hidden defects not detected during our inspection or occurring thereafter.

This document is issued by the Company under its General Conditions of Service printed overleaf. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein.

Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

c- As the below calculation sheet the daily recovery rate average:

-As Flowmeter records= 0.0501% from the daily sales quantity.

-As System sensor records= 0.544% from the daily sales quantity.

(Recovery Rate = Daily Recovery Amount/ Daily sales Amount).

Date	Daily Sales Quantity - liters (Jopetrol System)	Marshall Company System Reading (Recovery Amount)	Flowmeter Daily Reading (Recovery Amount)	Daily Recovery Rate as flowmeter (Recovery rate according to sales quantity)	Recovery rate as Sensors (Recovery rate according to sales quantity)

The above reflects our findings at time and place of inspection. This inspection report doesn't relieve buyers or sellers from their contractual responsibilities nor does it prejudice buyer's right of claim toward sellers/suppliers for compensation for any apparent and/or hidden defects not detected during our inspection or occurring thereafter.

This document is issued by the Company under its General Conditions of Service printed overleaf. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein.

Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.
