

SDS: VWB-100 Oil

SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

Vacuum Oil ISO-VG 100

Product code: Trade product

Revision date: 18-12-2025

Version: 2.0

Replaces version: 1.0

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier

Product name: Vacuum Oil ISO-VG 100

Product code: Trade product

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Vacuum Oil

Uses advised against: No additional information available

1.3. Details of the supplier of the safety data sheet

MasarZero

Dilmun Tower A, Manama, Bahrain

Tel: +973 1231231231

Email: info@masarzero.com

Website: www.masarzero.com

1.4. Emergency telephone number

Emergency number: +966 12341234

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

Classification: Not classified

2.2. Label elements

Signal word: None

Hazard statements:

- EUH210 - Safety data sheet available on request.

Precautionary statements:

- P102 - Keep out of reach of children.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2. Mixtures

Substance name	CAS No	EC No	% (w/w)	Classification
Distillates (petroleum), hydrotreated heavy paraffinic (Note L)	64742-54-7	265-157-1	≥ 50	Asp. Tox. 1, H304

SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures

General: If you feel unwell, seek medical advice.

Inhalation: Remove person to fresh air and keep comfortable for breathing.

Skin contact: Wash skin with plenty of water.

Eye contact: Rinse eyes with water as a precaution.

Ingestion: Call a poison center or a doctor if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects: Inhalation: At normal ambient temperatures this product will be unlikely to present an inhalation hazard because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fumes resulting from thermal decomposition products occurs.

Skin: Unlikely to cause harm to the skin on brief or occasional contact but prolonged or repeated exposure may lead to dermatitis. High pressure injection of product into the skin may lead to local necrosis if the product is not surgically removed.

Eye: Unlikely to cause more than transient stinging or redness if accidental eye contact occurs.

Ingestion: Bad taste. Unlikely to cause harm if accidentally swallowed in small doses, though larger quantities may cause nausea and diarrhoea.

SECTION 5: FIREFIGHTING MEASURES

Extinguishing media: Waterspray. Drypowder. Foam. Carbon dioxide.

Unsuitable: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

Specific hazards: Combustion generates: CO, CO₂, PO_x, NO_x, SO_x, H₂S. Metal oxides. Not expected to be a fire/explosion hazard under normal conditions of use.

Advice for firefighters: Fight fire from safe distance and protected location. Do not enter fire area without proper protective equipment, including respiratory protection. Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions: Stop leak if safe to do so. Notify authorities if product enters sewers or public waters. Absorb spillage to prevent material damage. Ventilate spillage area.

Environmental precautions: Avoid release to the environment.

Methods for cleaning up: Absorb spilled material with sand or earth. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Stop leak without risks if possible. Take up liquid spill into absorbent material. Dispose of materials or solid residues at an authorized site.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling: Ensure good ventilation of the work station. Wear personal protective equipment. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

Conditions for safe storage: Keep container tightly closed and in well ventilated place. Keep cool. Protect from sunlight. Maximum storage period: 5 year. Storage temperature: $\leq 40^{\circ}\text{C}$. Keep away from: Oxidizing materials. Strong acids.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters: Exposure-value for oil mist : 10 mg/m³ (15 min.) or 5 mg/m³ (8 hours).

Exposure controls: Ensure good ventilation of the workstation.

Personal protection: Safety glasses. Wear suitable protective clothing. Protective gloves (PVC, Neoprene or nitrile rubber). In case of insufficient ventilation, wear suitable respiratory equipment.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid

Odor: Characteristic

Boiling point: $> 280^{\circ}\text{C}$

Lower explosion limit: 0,6 vol %

Flash point: 222°C ASTM D 93

Decomposition temp: Not available

Kinematic viscosity: 75 – 150 mm²/s at 40°C , ASTM D445

Partition coefficient: Not available

Density: 0,877–0,879 kg/l ASTM D 4052

Particle characteristics: Not applicable

Color: Amber

Melting point: $\leq -24^{\circ}\text{C}$ ASTM D 97

Flammability: Nonflammable

Upper explosion limit: 7 vol %

Auto-ignition temp: $> 240^{\circ}\text{C}$

pH: Not available

Solubility: Insoluble in water.

Vapor pressure: $< 0,1\text{ hPa}$ (at 20°C)

Relative vapor density: > 1 (air = 1)

SECTION 10: STABILITY AND REACTIVITY

Reactivity: Stable under normal conditions of use.

Chemical stability: Stable under normal conditions

Hazardous reactions: Refer to section 10.1 on Reactivity.

Conditions to avoid: Moisture. Overheating.

Incompatible materials: Strong oxidizing agents. Strong acids.

Hazardous decomposition: CO, CO₂, PO_x, NO_x, SO_x, H₂S. Metal oxides.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute toxicity: Not classified (Based on available data, the classification criteria are not met)

LD₅₀ oral rat > 5000 mg/kg

LD₅₀ dermal rat > 2000 mg/kg

LC₅₀ Inhalation - Rat > 5,53 mg/l

Skin corrosion/irritation: Not classified (Based on available data, the classification criteria are not met)

Serious eye damage/irritation: Not classified (Based on available data, the classification criteria are not met)

Respiratory/skin sensitization: Not classified (Based on available data, the classification criteria are not met)

Germ cell mutagenicity: Not classified (Based on available data, the classification criteria are not met)

Carcinogenicity: Not classified (Based on available data, the classification criteria are not met)

Reproductive toxicity: Not classified (Based on available data, the classification criteria are not met)

STOT-single exposure: Not classified (Based on available data, the classification criteria are not met)

STOT-repeated exposure: Not classified (Based on available data, the classification criteria are not met)

Aspiration hazard: Not classified (Based on available data, the classification criteria are not met)

SECTION 12: ECOLOGICAL INFORMATION

Toxicity: The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

LC₅₀ fish 1 > 100 mg/l

EC₅₀ Daphnia 1 10000 mg/l

EC₅₀ 72h - Algae [1] > 100 mg/l

Persistence and degradability: Not readily biodegradable.

Bioaccumulative potential: This product is not expected to bioaccumulate through food chains in the environment.

Mobility in soil: Not miscible with water. Spillages may penetrate the soil causing ground water contamination. This product floats on water and may affect the oxygen-balance in the water.

PBT and vPvB assessment: No additional information available

Endocrine disrupting properties: No additional information available

Other adverse effects: No additional information available

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods: Disposal must be done according to official regulations. Dispose of contents/container in accordance with licensed collector's sorting instructions. Do not re-use empty containers.

SECTION 14: TRANSPORT INFORMATION

UN number: Not regulated for transport

UN proper shipping name: Not regulated

Transport hazard class(es): Not regulated

Packing group: Not regulated

Environmental hazards: Not regulated

Special precautions for user: Not regulated

Maritime transport in bulk: Not applicable

SECTION 15: REGULATORY INFORMATION

Safety, health and environmental regulations: REACH Annex XVII: Distillates (petroleum), hydrotreated heavy paraffinic. VOC content: 0%.

Chemical safety assessment: A chemical safety assessment has been carried out

SECTION 16: OTHER INFORMATION

Changes from previous version: Section 1.1 Name Added, 9 Relative vapour density at 20°C Modified, 9.2 Explosive limits (vol%) Removed, 10.4 Conditions to avoid Modified, 16 Abbreviations and acronyms Modified

Abbreviations and acronyms: ACGIH, ADN, ADR, ATE, BCF, BLV, BOD, CAS-No., CLP, COD, CSA, DMEL, DNEL, EC-No., EC50, ED, EN, EWC, IARC, IATA, IMDG, LC50, LD50, LOAEL, Log Kow, Log Pow, MAK, NOAEC, NOAEL, NOEC, N.O.S., OECD, OEL, OSHA, PBT, PNEC, PPE, RID, SDS, STP, TF, ThOD, TLM, TWA, VOC, vPvB, UFI

Key literature references: REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL. Supplier's safety documents. ECHA (European Chemicals Agency).

Classification methods: Based on available data.

Relevant phrases: Asp. Tox. 1: Aspiration hazard, Category 1. H304: May be fatal if swallowed and enters airways. EUH210: Safety data sheet available on request.

Training advice: Normal use of this product shall imply use in accordance with the instructions on the packaging.
